CCFD CERT Communications Exercise
Operation Neighborhood Connect
Search & Rescue (Station #1)

Scenario: Your CERT team arrives at a residential property approximately 30 minutes after a magnitude 6.9 earthquake. Assess the scene using the image and the following information.

Additional Information: **1432 Oak Grove Avenue, Burlingame**

- A neighbor reports hearing someone calling for help from inside the residence.
- The homeowner believes an elderly family member may still be upstairs but cannot confirm.
- Two residents evacuated the home and report no injuries.
- No one has entered the building to conduct a search.
- Several aftershocks have occurred in the area.
